FREEPORT
RUSTIC WINDOW SHADE FACTORY,

Cor. ADAM and GALENA Streets.

Reasons why Rustic Window Shades are used in preference to all other Shades.

1st. No fixtures to buy or put up. 2d. They can be hung or unhung in a minute. 3d. They are cheap, convenient and handsome. 4th. Their durability, lasting from five to ten years. 5th. They answer the purpose of mosquito and fly bars, insect blinds and window shades. It is not necessary to entirely close a room, shutting out all light and air to keep flies out, but this shade can be let down, the window raised, admitting air and a soft twilight, but excluding flies, &c. 7th. They make truly a delightful appearance, especially when overhanging with lace curtains. Window shades are flimsy, oil cloth with break, with paper and heavy corn shades half of the time, and lasts but six months, but Rustic Shades as they are now made have none of these defects. We make any size to order, and send them by Express to parties residing at a distance. They are well adapted for Store, Church, and School House windows.
